Subject: Re: GKM inquiry

Hi Christie,

I'm trying to get some information on blow-outs and bulkheads in the area of the Gold King Mine:

Could you tell me how many concrete bulkheads are installed to stop up the 350 miles of mining tunnels between Telluride and Silverton?

How many blow-outs have there have been in that area since concrete bulkheads were first installed?

How many blow-outs there were on record before concrete bulkheads were used?

How many concrete bulkheads are there in all of the dormant mines in the US?

How many installed in Colorado?

When was the first concrete bulkhead was installed? Or the first concrete bulkhead installed in compliance with an EPA remediation plan?

I'm on deadline today, so if a phone call is easiest, I'm happy to talk over the phone.

Thanks for your help. All best,
Caty

Hi Caty,

Thanks for calling into the GKM media hotline. I'm sorry but I'm not sure I understand your question, how can I help?

Christie
